

GODFRED ABAKAH

Aspiring Software Developer | Technology Enthusiast

Shama, Ghana
godfredabakah@gmail.com

PROFESSIONAL PROFILE

I am an aspiring software developer and technology enthusiast with a strong interest in web development, programming, robotics, and digital innovation. I enjoy learning through practical projects, experimenting with new technologies, and turning ideas into functional digital products.

I have developed foundational skills in **HTML, CSS, and Python** and am currently expanding my knowledge of **JavaScript and modern web development**. I enjoy solving problems through code and continuously improving my skills by building projects.

I am also interested in entrepreneurship and technology startups. My long-term goal is to study Computer Science, become a highly skilled software developer, and create innovative technology products that solve real-world problems.

TECHNICAL SKILLS

Web Development	Programming	Other Interests
• HTML5 • CSS3 • Responsive Web Design • Semantic HTML • Accessibility Basics	• Python • JavaScript — Currently Learning • Problem Solving • Programming Fundamentals	• Robotics • Software Development • Technology Entrepreneurship • Digital Product Development • Innovation

EDUCATION

Junior High School — Completed	2026
Ghana. Successfully completed Junior High School education and developed a strong interest in science, mathematics, computing, and technology.	
Senior High School — General Science	2026+
Ghana. Continuing education in General Science while developing an interest in computing, programming, technology, and problem solving.	
Future Academic Goal — Bachelor's Degree in Computer Science	Future
Long-term goal is to study Computer Science and develop advanced knowledge in software engineering, programming, artificial intelligence, and technology.	

PROJECTS

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript

Designed and developed a personal portfolio website to showcase skills, education, projects, achievements, and contact information.

- Responsive navigation
- About Me, Skills, Education, Projects, and Achievements sections
- Contact form
- Interactive JavaScript features

Technology Projects

Continuously developing personal technology projects to strengthen programming and software development skills through practical problem solving, web development, and digital product creation.

ACHIEVEMENTS & CERTIFICATIONS

Codeavour 6.0 International Showdown — 2025

Certificate of participation in an international technology and innovation competition.

- Completed foundational HTML studies.
- Developed foundational CSS skills.
- Started learning JavaScript.
- Learned Python programming fundamentals.
- Built a personal portfolio website.
- Began developing personal technology projects.

INTERESTS

Software Development • Web Development • Robotics • Problem Solving • Technology Startups • Innovation • Digital Products • Programming

CAREER GOAL

My goal is to become a skilled software developer and technology entrepreneur. I want to develop the technical knowledge required to create useful and innovative software products that can solve real-world problems.

I plan to continue improving my programming skills, building projects, participating in technology competitions, and learning about emerging technologies. In the future, I hope to study Computer Science and build a technology company focused on creating impactful digital products.
